

## REMARKS

Claims 1-17 are now pending.

Applicants present this Supplemental Amendment to clarify that the co-herbicide claimed is the isomer fenoxaprop-P-ethyl rather than the corresponding racemate, fenoxaprop-ethyl. The isomer is the co-herbicide tested and discussed in the Declarations filed on December 20, 2005. Support for this amendment is found in the specification at page 10, line 5 of the second paragraph. No new matter is added.

Applicants thank Examiner Qazi for the courtesy of the interview extended to the undersigned on August 27, 2007. During the interview, the Examiner indicated that synergy should be explained for each and every co-herbicide claimed. Applicants' undersigned attorney disagreed with the Examiner's position, and no agreement was reached with respect to the claims.

No fees are believed to be payable at this time. However, the Commissioner is authorized to debit any applicable fees from the deposit account of the undersigned, no 50-1676 in the name of Syngenta Crop Protection, Inc.

Respectfully submitted,

USPTO Customer No. 26748  
Syngenta Crop Protection, Inc.
